

## New Release of KU Band GU-4 Series LNB

G-Star Communication is proud to present a new KU band LNBF series – GU-4 series. This brand new series is G-Star's latest endeavor in pursuing high-quality and innovation of DBS products. The sophisticated design and compact exterior make GU-4 series a fusion of high performance and fine craftsmanship. GU-4 series comes in single and multiple outputs. You may find more info in our product page.

### Main Features:

	Low Band	High Band
<b>Input Frequency</b>	10.70 ~ 11.70GHz	11.70 ~ 12.75GHz
<b>Reflector Type</b>	Offset	
<b>F/D Ratio</b>	0.5 ~ 0.7	
<b>Cross Polarization Isolation</b>	20 dB (Min.)	
<b>Noise Figure</b>	0.6 dB Typical	0.6 dB Typical
<b>Conversion Gain</b>	50 dB (Min.) / 60 dB (Max.)	
<b>Output Frequency</b>	950 ~ 1950 MHz	1100 ~ 2150 MHz
<b>L.O. Frequency</b>	9.75 GHz	10.60 GHz
<b>Image Rejection</b>	45 dB (Min.)	
<b>Output VSWR</b>	2.5 : 1 (Max.)
